LETTER OF RECOMMENDATION

To Whomsoever It May Concern,

It is my genuine pleasure to recommend **Mr. Om Nirajkumar Patel**, a final-year **Computer Science and Design** student at **GCET, CVM University (Enrollment No. 12202130501047)**, who interned with our division from **January 1 to April 30, 2026**. Om served as the **designated Lead Intern** for a cohort of **54 students** from institutions across India and Bangladesh - coordinating weekly evaluations, resolving technical disagreements, and guiding peers of varying preparedness toward strong outcomes. The cohort worked across domains including machine learning, data science, NLP, and dashboard development and keeping that breadth aligned and productive required both technical fluency and genuine people sense. Managing a cross-cultural group of this scale, with consistency and composure, is something most professionals find difficult.

His own technical work – **Gear Mind AI** is a full-stack predictive maintenance system built for Leading gear manufacturing operations. It integrates a five-model ML pipeline (**Gradient Boosting, XGBoost, Random Forest, SVM, and Logistic Regression**) with **SHAP and LIME explainability layers**, an Isolation Forest anomaly detector, and a Differential Evolution optimizer. The frontend, built in **React 19**, spans eight modules; the **FastAPI** backend powers real-time inference. A **LLaMA 3.3 70B (Groq) AI Copilot** provides natural language support to maintenance personnel. The system's QC module validates dimensional parameters against AGMA standards and surfaces actionable pass/fails assessments.

From within the wider cohort, Om hand-selected **12 interns for an advanced dashboard-building sub-track**, personally guiding them through enterprise system architecture. The improvement in their submissions was both visible and directly attributable to him.

Given his success in moving systems to production and training our team, Om has my highest recommendation for any future endeavour.

Yours sincerely,

Mr. Saryam Rayat
Industry Mentor & Deputy General Manager
